In Final_1, select the data set by commenting out the other three lines of data set import code

Condition Based Maintenance of Naval Propulsion Plants Data Set:

```
341    #the first data set
342    data = pd.read_table("data1.txt", sep = '\s+' ,header=None)
```

Appliances energy prediction Data Set

```
344    #second
345    # data = pd.read_csv("energydata_complete.csv")
```

Superconductivity Data Set

```
347    #third
348    # data = pd.read_csv("train.csv")
```

Blog Feedback Data Set

```
350    #forth
351    # data = pd.read_csv("blogData_train.csv")
```

After running the program, you can get the picture shown in Chapter 4 of the paper
